## MYSTER.OUS DROWNING

Body of Charles IVI. Sharply Taken from Canal-May Be Suicide. (Special Dispatch to The Times.)

NORFOLK, VA., October 29 .- The body of Charles M. Sharply was taken from the canal at 6 o'clock this evening.

He was about forty years old, and out in winter. The head, feet and hands book-keeper for McHorney and Wyatt, are the parts most often attacked, though naval stores. He lived with W. A. Wyatt, who died last week as the result of body, the skin hardens, cracks open and

an amputated leg.

Sharply had a wife and four children.
He was an exemplary man and a clever accountant. Sharply was seen struggling in the water, but not making much effort to save himself. But before those on shore could rescue him he sank.

The drawning is mystellous and the on shore could rescue him he sank.

The drowning is mysterious, and the police and the coroner are investigating.

One theory is that he was affected by the death of his friend; another is that

the fell from the bridge.

Still another theory is that Sharply committed suicide, as it is said he attempted to hang himself fifteen years ago. He put a noose around his neck and kicked a cheese box from under him. He was discovered and saved.

R. Powell as president, and Inomes H. Brown, as secretary, is being distributed among the negro voters in this city. It says:

"At the election to be held November 4th, 1992, since it is a fact that there has been no nominating convention in this district, and no Republican candicate nominated in this district, and no Republican candicate nominated in this district, and ro Republican candicate nominated in this district, and ro Republican, and to show to the world that we are men that will not be hoodwinked into the support of a man who is not a Democrat, Populist or Republican, but who openly avows that he is not a Republican, and cares nothing for the Republican, and cares nothing for the Republican, and cares nothing for the Republican party, but simply claims to be an independent.

"Since we cannot afford to support an independent, let us sland out this practice on the part of those who simply grab at some one to put in the field to make it appear to the national Republican party that they are doing screat things in the interest of Republicanism, when in fact they are doing nothing except perpetuating their own stay in office and benind closed doors are carsing the negroes.

publicans, so-called, fight it out."

PETERSBURG ENPRESS.
The gun known as the "Petersburg Express," about which inquiry was made recently, was planted on Battery No. 5, "Friend's Farm," in line with Lombard Street. It was a Parrott gun, carrying a 32 percustion shell about 18 inches long. This was the gun that demo.ished the gas works and left the city in darkness for some time. Mr. J. R. W. Sith said to day that he was a member of Sturdevant's battery, which had one gun in 1884, Battery No. 5. This battery, he says, was captured by the Federals June 15th. In the fight Sturdovant's battery loft in killed, wound d and captured 120 men out of 128. There are only three survivors of the eighteen men who escaped. After the capture of Battery No. 5 the Federals substituted a Confederate gun with the "Petersburg Express." This was the only gun of any size that could throw shells into the city from the Federal lines. A Grand Army veteran, who was recently in the city, says: "The gun was placed on a flat car and carried along the railroad between this city and City Point."

# OR TETTER Is one of the many varieties of that tormenting disease called Eczema. It slum-

it sometimes appears on other parts of the body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching only makes it worse, sores and scabs forming where the skin is broken.
In this form of Eczema brownish white

crusts sometimes form which scale off SKIN CRACKS fine particles, leavingtheskin raw AND BLEEDS

and inflamed. It is especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to acid poisons in the blood and not to local causes. The trouble is more than skin deep, and wasies, soaps, powders and salves nor anything else applied to the surface can possibly do more than soothe the burning and itching or relieve temporarily the inflammation and pain.

It is the acids thrown off by the blood and which are forcing their way through the pores that cause the skin to harden,

crack and bleed, and produce the irritation and soreness.
